

RATatouille

=====

We recovered a half-finished telemetry implant from a Michelin inspector's workstation. It stays dormant on our analysis hosts, but incident-response telemetry says it briefly prepared a secret "signature dish" on the original machine.

Reconstruct its activation profile and recover the volatile secret.

Flag format: DCTF{<64 lowercase hexadecimal characters>}

Warning: this binary contains dormant malware-like persistence and collection routines. Analyze and execute it only inside an isolated disposable environment.
